

LUXTIPPS

logo kit · built on the colours and type of luxtipps.com

1 / 2

PRIMARY LOGO

This is the one to use almost everywhere. Dark background, cream L, gold bars.

STACKED · FOR SQUARE SPACES

On his dark site, and on anything printed or white.

ONE COLOUR · WHEN COLOUR IS NOT AN OPTION

black · invoices, stamps, fax

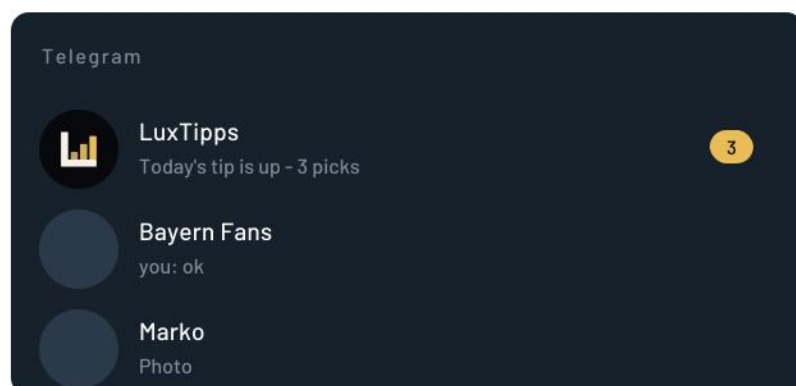

cream · on dark photos

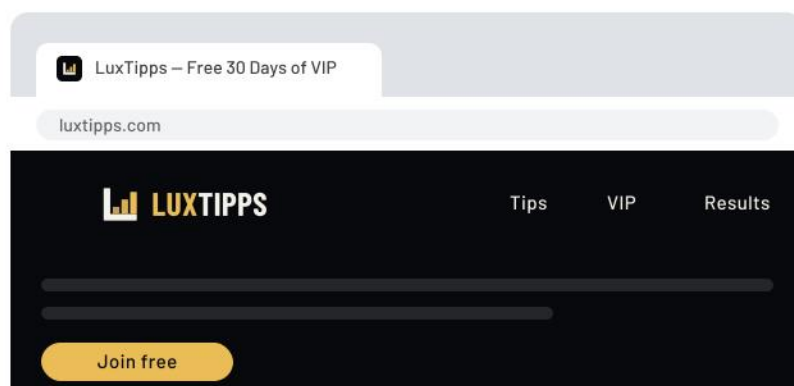

gold · on very dark only

IN USE

the avatar, masked to a circle by Telegram itself

favicon in the tab, primary logo in the header

WHERE EACH FILE GOES

so nothing has to be re-cropped or re-made

PROFILE PICTURE, APP ICON, FAVICON

small print

TYPE

Barlow Condensed Bold

the logo and headlines

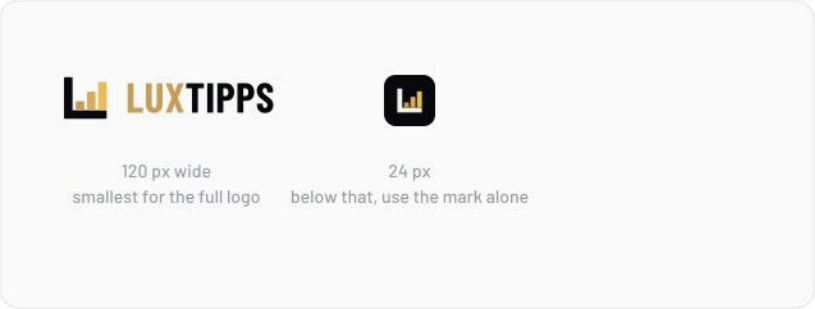

Barlow Medium

everything else · both are free for commercial use (OFL)

CLEAR SPACE · MINIMUM SIZE

x = the height of the tallest gold bar. Keep that much space empty on all four sides – no text, no photo edge, no button.

Under 120 px the two words start closing up. Swap to the square mark instead – it was drawn to survive a 16 px favicon.

WHAT IS IN THE FOLDER

/logo the wordmark lockups - this is what goes on the site and on anything printed

- SVG luxtipps-horizontal-dark-tagline.svg
- SVG luxtipps-horizontal-dark.svg
